J.R. Design & Construction
Best Theater

innovation in Construction

Best Commercial Remodel Under \$100,000

Monetti Custom Builders
Robert L. Monetti
Brielle, NJ

Monetti transformed an existing art studio into a builders's office/showroom. The space required natural light with which to showcase the builder's work; workflow patterns that enhanced the small space but also demonstrated

the builder's craftsmanship. Soundproofing was needed with this location, which further limited the interior space. But, the result is testimony to Monetti's skill and craftsmanship. Total budget: \$46,000.

Dear Innovations in Construction Awards Winner:

Enclosed is your certificate acknowledging the award and the category in which you received the Innovation in Construction title. We do not frame the certificates because we do not know what color or type of frame will complement your office/showroom, or if you use these certificates in your pitch book. Please utilize the certificate in a manner benefiting your individual business.

Also, 250 copies of the article proclaiming your award are in this shipment. The article came off the press in two, 16-page forms, and are not collated and stapled – again because we do not know how you intend to use them. The top sample indicates the printed version. If you want to send the complete section of the magazine to prospects, you may. If you use the page(s) with your award(s) and the article cover page listing all the winners, you may do that also.

These are provided for your use – hopefully they will assist you in marketing your company and differentiating yourself from others in the industry.

Congratulations!

Sincerely,

A handwritten signature in blue ink, appearing to read 'Renée'.
