

AZEK® Inspires

Going Coastal with AZEK Trim

Robert Monetti of Monetti Custom Builders, Brielle, NJ, appreciates the traditional look his clients demand and that they rely on his expertise to

provide it. Given the extreme weather conditions along the New Jersey shoreline, his firm is not only able to duplicate the sought after look and feel of traditional designs, but can offer clients minimal maintenance and a trouble-free product. "Our purist methods of workmanship and materials translate perfectly with AZEK products," says Robert. "AZEK trim has proven itself to be versatile in applications where wood previously was the only material of choice. Since we started using AZEK Trimboards a few years ago along with related low-maintenance products, both client satisfaction and feedback among employees has been excellent." Robert says the versatility and longevity of AZEK trim has made scores of projects a reality for both Monetti Builders and their distinctive clientele. Way to ensure smooth sailing for coastal homeowners, Robert!

Have you been inspired by AZEK Trimboards? We'd love to hear about it! Email us at info@azek.com and include photos. Your project could be our next AZEK Inspiration!
